How to Use

1. Choose the type of head required
2. Before using the device, press the power touch key to check the battery level. A blue light will blink to indicate the power level
3. Long press the power touch key to switch on the device
There are 6 speed intensity levels
4. Short press the power touch key to switch between the six speed intensity levels. The number of glowing LEDs indicates the selected level
5. Use the device on pain area according to your comfort
6. After use, long press the power touch key to switch OFF the device

WARNING

- ◆ Do not immerse it into water, keep it away from liquids or heat sources. Keep the back vent free from dust and scraps
- ◆ Do not remove the screws or try to disassemble the device
- ◆ Do not use it for more than 30mins. Give break of 10-15mins before using it again
- ◆ Unplug the USB cable from the battery after charging or before the use
- ◆ For adult use only
- ◆ If you have injuries, do not use this device. Please consult with your doctor before using this device

Maintenance

Clean the device with a slightly damp towel, then wipe it dry using a soft cloth. Store it safely in the supplied carton/box when not in use.

Charging

- ◆ Charge it for three hours before using it for first time
- ◆ When charging, connect cable end to charging port, and then insert the USB plug to the adapter
- ◆ If the LED on the device flashes, it indicates that the battery is being charged
- ◆ If all LED stop flashing and are on, it indicates that the battery is fully charged
- ◆ Do not use the device while charging

Safety Notes

DANGER: IN ORDER TO REDUCE THE RISK OF ELECTRIC SHOCK, FIRE AND PERSONAL INJURY, THIS PRODUCT MUST BE USED IN ACCORDANCE WITH THE FOLLOWING INSTRUCTIONS.

- This device is for adults only
- It is better to use it on dry, clean skin surfaces of the body
- Very carefully check the device and battery before each use
- Use the device only on soft tissues without causing pain or discomfort
- Do not use it on head or any hard/boned part of the body
- Stop using if immediately once there is sign of pain or discomfort
- Keep fingers, hair other such parts of the body away from the shaft and back of the vibrating head
- Do not place any object in the vent of the device
- Do not immerse it in water or allow water to enter the vent of the device
